

The fastest growing supplier of quality tubes & components for CO₂ lasers.

Richardson Electronics has been supplying quality power grid tubes to the CO₂ laser market from the very beginning. We maintain an extensive inventory of triodes and tetrodes used in many of today's state-of-the-art laser cutting systems, including [Bystronics](#) and [Trumpf](#). These tubes are in stock and ready for same-day shipping. We also stock replacement water fittings and preformed tubing for [Trumpf](#) laser systems.

Our complete line of replacement tubes are manufactured by the world's leading power grid and special purpose tube manufacturers, including: [Thales](#), [National Electronics](#) and [Toshiba](#).

For industrial laser systems, Richardson Electronics offers products manufactured for use in the following manufacturer's CO₂ laser systems: [Bystronics](#), [Coherent](#), [Electrox](#), [Laser Machining](#), [Lumonics](#), [Mazak](#), [Rofin Sinar](#), [Synchron](#) and [Trumpf](#).

Richardson Electronics is a global organization serving customers from a network of local sales offices and stocking locations throughout the world. Locate the Richardson Electronics sales representative nearest you and find contact information for all of our worldwide locations online at www.rell.com.
